Acme Gold Anodized, 3 sensor, VW diesel rear water outlet housing 1. You need this rear outlet housing at the back of your VW head if you don't have a metal housing. The metal housings don't warp and provide grounding for sensors eliminating extra wiring. ACME VW diesel water temp housings are anodized for corrosion resistence and come with a new VW temp sensor for glow plug relay , Suzuki temp sensor for your stock temp gauge and an aftermarket port so you can utilize a mechanical water temperature gauge. Transmission Adapter options. Notes: Recommended for those that can weld, fabricate and design engine mounts, engine accessory brackets and other hardware as required. Notes: Both the 22 or 26 inch VW radiators work as options. Notes: Requires larger 26 inch radiator. Requires remote oil filter or special order oil filter housing. Requires intake manifold adapter. Notes: Requires a special sized radiator; If your planning to use a later model 1. Please e-mail for more information at: sales acmeadapters. Suzuki Diesel Green Fuel Caps are finally here! GM Alternator Upgrade Bracket: 1. To the delight of Chevrolet dealers, Geo is introducing a new four-door hardtop variant of the cute little Tracker. For , all Trackers get a revised instrument panel with dual airbags. Four-wheel anti-lock brakes are optional. So equipped, the new Tracker should prove quite popular in the burgeoning mini sport-ute marketplace. Fun-in-the-sun takes on fresh meaning behind the wheel of a snug-but-cozy Tracker convertible, whether its engine is driving two wheels or four. A valve engine powers all Tracker models, sending out 95 horsepower. Naturally, the new four-speed automatic transmission saps much of that strength. Short and stubby, these friendly little vehicles maneuver easily and handle with a light touch, whether on the highway or in more

demanding situations. They're more solidly built than they appear at first glance—not at all like a toy—and deliver a passably pleasant ride most of the time. Differing little from the Suzuki Sidekick, Trackers look and feel substantial. Seats are firm but supportive, wearing nice-looking upholstery. Dual cupholders and a storage tray sit in the center console. Convertibles have an "easy opening" top that erects in two ways: either the front half folds back like a sunroof, or the entire canvas top can be stowed for fully-open motoring. Though improved, putting the top up and down still isn't exactly a quickie operation. Several "expressions packages" feature color-keyed convertible tops and wheels, and a Tracker can be equipped to tow half a ton. LSi editions feature automatic-locking hubs, which are nice to have if you switch often between two- and four-wheel drive. Four-door models can be equipped with power windows, door locks and mirrors. Child security rear door locks are standard, and daytime running lights have been added to all Trackers. Styling is slightly revised, and alloy wheels have been restyled. New exterior colors subdue the former Sweet Tart-inspired palette. Cruise control is a new option. Would you want the convertible as your sole vehicle? Probably not, but a soft top Tracker in the garage just might turn sunny summer days into a veritable binge of adventure. Practical-minded folks, on the other hand, might prefer the weather-tight construction of a hardtop model. Sadly, we can't recommend using a Tracker for anything but light duty in the flatlands. The 1. With a bigger engine, the Tracker would certainly give the new Kia Sportage a run for the money. Doing so could save you hundreds or thousands of dollars. Edmunds also provides consumer-driven dealership sales and service reviews to help you make informed decisions about what cars to buy and where to buy them. Simply research the type of car you're interested in and then select a used car from our massive database to find cheap prew-owned vehicles for sale near you. Once you have identified a used vehicle you're interested in, check the AutoCheck vehicle history reports, read dealer reviews, and find out what other owners paid for the Used Geo Tracker. Is it better to lease or buy a car? Ask most people and they'll probably tell you that car buying is the way to go. And from a financial perspective, it's true, provided you're willing to make higher monthly payments, pay off the loan in full and keep the car for a few years. Leasing, on the other hand, can be a less expensive option on a month-to-month basis. It's also good if you're someone who likes to drive a new car every three years or so. Four-wheel antilock brakes are optional. Revised styling freshens the new exterior, and daytime running lights make the Tracker more conspicuous to motorists. Cruise control is a new convenience option. Read more. Write a review See all 19 reviews. Personally I wanted to buy a truck with good gas mileage but 4wd to have sum fun on the trails on weekends. When I had bought this one I had driven one before, so it wasn't a surprise but this thing really goes any where. I've done timing belt, trans flush, full lubrication, and restore during the oil change. With a new set of AT tires, and maybe a luggage rack, I'll expect , miles plus! An excellent vehicle. I got what I expected and more. I expected good japanese quality we all know they are Suzuki's and have gotten it. I bought my Tracker in with 17k miles and have added over 21k miles a year and have never had any mechanical problem. The gas mileage has been good and everyone who has driven it admitted it is fun to drive. Sure it is not a power machine, but you know that when you buy it. I am sure this car will keep going for another k miles. Read less. I bought this vehicle used with a hard top. I have had so much fun with this vehicle I sold it and then bought it back. I have put Jeeps to shame with the ability of this Tracker in 4WD. You can park it in a dumpster, it's so small and agile. Due to it's center of gravity I would not recommend this for new drivers, but experienced off road drivers will have a fun economical time with it. In a K miles I have had to replace the battery, other than that it's been maintenance free, and it has very few computer chips, which is an asset as far as I'm concerned. This is perfect for someone who wants to tow a vehicle behind an RV and doesn't need room for more than two. See all 19 reviews of the Used Geo Tracker. Write a review. Frontal Barrier Crash Rating.
