Nissan xterra colors by year

The Nissan Xterra is a front-engine, 2-wheel or 4-wheel drive, five-door, five passenger, truck-based compact SUV manufactured and marketed by Nissan Motors from â€" across two generations; the first â€" sharing a platform as well as front bumper, hood, A-pillar, windshield and front doors with the Nissan Frontier pickup [2] â€" and the second â€" also sharing its platform with the Frontier. While the two Xterra generations differed significantly, both prioritized ruggedness and affordability over luxury [3] and used body-on-frame construction along with underbody skid plates. The stepped roof accommodated a lower, front roof rack with a removable gear basket and a more conventional roof rack at the rear, upper roof. Variants were also manufactured in Brazil and China. The Xterra was introduced in North America in the model year, using Everything you need, nothing you don't as its marketing tagline. The SE featured standard equipment that was optional on an XE. All models featured removable, tab-secured rear seat cushions to accommodate a fold-flat rear seat back. The rear differential for all Xterras and Frontiers are HB with a number of gear ratios offered in both limited slip and open configurations. The most common being 4. Early differentials has a flange style input to the pinion while late through the end of production had a Spicer yoke style input to the pinion. The 3. The last of the model year Xterras were manufactured in January Larger in all dimensions than its predecessor, it entered showrooms in early for the model year. The standard engine was upgraded to Nissan's 4. The Xterra received a facelift for July production with more options and colors, leather seats on SE models, and roof mounted lights on off-road models. The last year of the Nissan Xterra in Mexico was Early US models include X, S and PRO-4X, with a choice of 6-speed manual or 5-speed automatic transmissions, a choice of part-time 4-wheel drive or 2-wheel drive. The Xterra was discontinued in the U. Poor fuel economy, declining sales, and mandated upgrades to safety and emissions were cited as reasons. All Nissan-produced Xterras manufactured outside the U. Nissan ceased Brazilian production entirely in The Paladin uses the same chassis and running gear as the first generation Nissan Xterra, and the 2. The front end is from the local Pickup. The second generation Xterra model is only available in North America. Other difference between the American Xterra and its Chinese counterparts is the parking brake actuator, a pedal with a pull-handle release in America, and a lever in China. Dongfeng Motors produces a Chinese version of the Xterra called the Oting from to It is based on the first generation of the Xterra. It was available with the 2. Following the Xterra's discontinuation from the U. From Wikipedia, the free encyclopedia. Not to be confused with Nissan Terra. Motor vehicle. The front view is anchored by a large, black-finished grille and bumper and rough, angular surface edges. The headlights, front bumper, hood, A-pillars and front doors are common to Frontier. I followed the instructions exactly as written and I am glad the scratches are covered and protected, but frankly the touch up locations are uneven to the touch, protrude from the surrounding paint, and look sloppy. I think an instructional video showing the entire process with the touch up paint would be hugely beneficial because the instructions are lacking for those of us who have no experience with body work. Perfect color match. Small touch up job. Very pleased with the results. Enter your year, make, and model below to find color matched paint:. Choose your Automotive paint color for your Nissan Xterra. Don't see your color listed? Call We probably have it. Did you choose the wrong vehicle model? Did you choose the wrong model? If you're still not sure, take a look at our All Nissan Models page. Or, just go to our page dedicated to Nissan Touch Up Paint.

Here's what our customers are saying about our Touch Up Paint: Daniel L, owner of a Nissan Xterra from Charlottesville, VA I followed the instructions exactly as written and I am glad the scratches are covered and protected, but frankly the touch up locations are uneven to the touch, protrude from the surrounding paint, and look sloppy. Cloud White. Deep Blue Metallic. Click here for Nissan paint code location diagrams and label examples. The exterior color of the spray paint matched perfectly. The manner in which both of the spray cans delivered the paint was disappointing. I thought that the spray tips were going to be adjustable. The aerosol on both cans came out in wide, flood type of aerosol. It was very difficult in controlling exactly where the aerosol was directed. The end result was fair. I wish I had a better experience. Order was shipped and delivered sooner than expected, color was a perfect match. I ordered the paint in a spray can and it matched perfectly. Okay, so I did a poor job trying to use a touchup pen and decided since my truck is a , I thought it was only a front fender but I was amazed when I was done. The color matched perfectly and I painted a section of in x in which overlapped onto the original paint with no noticeable difference in the Florida sunlight. Now it's time to give the hood a try. The paint color matched the car paint color perfectly. We could not see a difference between the colors. It is a tremendous value, considering what is being offered on the market. Looking for the correct color, even at the Nissan Dealership, seemed to be difficult. My son recommended we contact you. I am happy we did took his advice. It did not even take long for the paint to dry, and the car looks like new. Thanks again for the correct color match. The color match was perfect. The Nissan Xterra model will be offered on various markets around the world, however, North American markets are still a mystery. This model was present since and it was a very popular global model before its discount in Now, the Xterra will return and it will be largely based on the Nissan Terra model. It is a mid-size SUV available in China only. The model will represent the start of a third-generation and we can expect plenty of innovations. Yes, we can expect everything new from the exterior design, to the cabin layout and new drivetrains. The Nissan Xterra will ride on the same platform as the Navara pickup truck. Moreover, the same architecture underpins the current Renault Alaskan. However, Xterra will look very similar to the Nissan Frontier. The same design language is easy to spot, but Xterra still looks unique and sporty. Whatsoever, some cues are similar to the cues on the Rogue model. The exterior of the Xterra will be completely different when compared to the last model. A new generation means new design. The front part hosts brand-new headlights and the grille. Hood is more or less the same but this time it sports more prominent scoops. In the back, we can see a more angular approach with the larger bumper and modern taillights. Xterra is far from an aggressive model in terms of design. The interior of the all-new Nissan Xterra will look almost the same as the Terra model that is available only in China. It is a very modern cabin that shares almost nothing with the last Xterra model. The cabin is inviting and very upscale. Plenty of modern cues and features are available, even on the base model. Upper trims will offer more luxury, logically, such as leather upholstery. Interior layout is very good and the comfort is great. There will be room for seven passengers over the three rows of seats. Some reliable sources are saying the five-seat model will be available as well. The upcoming mid-size SUV will arrive with two engine options. The standard unit will be a 2. This engine is offering a standard 6-speed automatic gearbox and optional four-wheel-drive setup. The optional engine is a 2. The diesel unit is available with the 7-speed automatic transmission. However, further details about this unit are still not available. The
