Rx motorcycle

When it comes to custom prescription sunglasses for bikers, Bikershades. Bikershades has been the trusted source of custom Rx Biker glasses since And we do it right. Probably the most complicated part of buying prescription biker glasses is finding a pair of shades that fit. But not to worry, Bikershades is the expert when it comes to fitting frames. Unlike daily casual glasses, riding glasses fit according to your head or helmet size. Another important feature is how your nose is shaped. Is your nose smaller, larger, or average? Is your nose lower, higher or flatter? So, the combination of helmet size and nose shape will be very helpful. With Try Before Before You Buy, simply answer a few questions about your head size and nose size; as well as frame preferences. Each Try Before you Buy requires a fully refundable deposit. It takes us 24 â€" 48 hours to prepare your order, and FedEx guarantees delivery in 1 â€" 2 days. We also provide a return shipping label. Keep the frames for up to 5 days to decide which one fits you best. Imagine the time and gas you save with our Try Before You Buy program. Plus, shipping the completed frames and lenses back to you is FREE! For best results, we recommend your prescription is not more than 1 year old. Your eyes are constantly changing, and it is best to invest in a new prescription. A new prescription is always worth the investment of the eye exam. Bikershades makes it a priority to always offer the latest prescription lens technology. Bikershades also pledges to sell only the features and upgrades that will benefit the patient. We make all Progressive lenses with Digital Lens Technology. If you need progressive lenses, make sure to take a look at our new Digital Sport Progressive Lenses which are designed to optimize vision from 2 to 3 feet and beyond. That way you can see your instrument panel and the area directly in front of your wheel. The Vantage polarizes while it darkens. So if you are sensitive to glare from mirrors, bumpers, windows or water, polarized lenses are an excellent choice for you. In order to block out wind, sun and debris from all angles, it is necessary to wear motorcycle glasses with a frame. These wrap frames feature a base 8 to base 10 curvature lens compared to a base 2 or base 4 curvature lens for casual daily glasses. High wrap frames require special machinery such as sophisticated MEI Edgers to cut the lenses. Most optometrists and optical shops do not service wrap frames because they lack the expertise and correct machinery to cut the lenses. Flat lenses for casual frames are simple to cut. High wrap lenses are more complex and require years of specialized training. A rule of thumb for cutting lenses for wrap frames to remember is: the stronger your prescription, the more limitations you will encounter. Higher power lenses are thicker, and your field of vision will decrease if the lab uses the incorrect lens technology. The opticians at Bikershades. We know when to use Digital Lenses, when to recommend high index lenses, and which frames to use. The Wiley X foam is soft and is a spongy porous material. Most frames are Medium to Large. There are a couple of styles for Smaller heads. The foam is a thick waterproof foam and designed to minimize skin irritation. The foam is not removable in most styles, except for the Marauder and the Monster. Just pop out the lenses. The foam is also waterproof. The 7eye foam creates a deeper chamber between the eye and lens. So, if you have long eyelashes, 7eye is a great choice. SHOP 7eye. Got Your Own Frames? Bikershades Specializes in Wrap Frames Designed for Motorcycle Riding In order to block out wind, sun and debris from all angles, it is necessary to wear motorcycle glasses with a frame. Sweatproof Foam Cushion. Layered Foam Cushion. Sweat Proof Foam Cushion. These high definition Rx lenses provide a wider field of vision and eliminate the peripheral distortion referred to as a Fishbowl Effect. Special edgers are used to place a shelf bevel on the back of lenses that have a removable foam eye seal. This insures the eye seal will fit flush with the frame, and prevent air from rushing in. Lens surfacing and edging shaping to fit in the frame are both extremely advanced technologies, yet pricing is still extremely competitive. Progressive prescription lenses are available on all of these Rx-able motorcycle glasses. We will send you a pair of glasses to try on along with instructions that will help us calculate the exact height of your eyes in these lenses. Not sure where to start? See our Non-Rx Motorcycle Sunglasses. Removable foam or rubber padding in these motorcycle glasses allows you to convert these to regular sunglasses when wind protection is not required. Sweaty or worn eye seals can also be easily replaced. Prescription Motorcycle Sunglasses. Gender Male Female Unisex. Frame Type Goggles Full Rim. Frame Material Nylon. Category Sunglasses.
